

The Sicilian territory is ready to welcome and host visitors who have the sensitivity to respect the environment. Thanks to the electric charging stations present in several villages of the Alcantara Valley, the Nebrodi and Peloritani mountains, it will be possible to pick up the car already at Catania airport and start the journey in a gentle and sustainable way. You can travel up to 300 km of road with and re-enter it during the stops in the villages. During your stay you will have the opportunity to carry out various activities such as walks in the vineyard, visits and tastings in the cellars and at the Enoteca Regionale in the Lauria Castle of Castiglione di Sicilia. Know and taste the typical dishes of the tradition at the houses of "Le mamme di Motta Camastra", the chocolate desserts with hazelnuts in different pastry shops in Francavilla di Sicilia, the dried almond and pistachio pastes in Bronte. In Randazzo you can visit "the house of music" of the master luthier Giuseppe Severini. From Linguaglossa a carriage ride, from the Ragalbo refuge a horseback ride on Etna, or decide to try your hand at a game of golf at the Etna Golf in Castiglione.
